

midwesco® Platinum Series™ Cartridge Filters

“We Take The Dust Out of Industry!”™

TDC Brand Platinum Series™ Cartridge Filters

Midwesco® Filter Resources, Inc. just launched it's new TDC brand Platinum Series™ cartridge filter line. This is another product release in our on-going effort to continually provide you with the most cost effective, highest value proven products and services available that will enhance your dust collector system performance. The new Platinum Series™ retrofit cartridges are designed to match Camfil/Farr's Gold Series® cartridges.

Our custom construction allows for airflow maximization, extended filter life and reduced purchasing/maintenance costs. Our separator bead and expanded metal inner core allows for uniform pleat spacing achieving more efficient cleaning and a lower pressure drop. Our permanent double gasket seals ensure tight fitment to protect from leaks and allow full optimal filtration for your dust collector. The Platinum Series™ cartridge filters also comes in a variety of filter medias with abrasion and chemical resistant finishes to match your application needs.

Call us today for a free quotation to see how you can starting saving time and money immediately!
