

TECHNICAL DATA SHEET

REBUILDS & RETROFITS

As your facility's life span has been extended or your process conditions have changed, the demand placed upon your baghouses are often neglected until the equipment has a problem. Rebuilding or retrofitting your baghouses can be handled by one source, from planning to execution, Midwesco Filter.

Whether your baghouse needs to be rebuilt or just updated, Midwesco Filter is the only experienced and demonstrated company that can provide Turnkey Project Management. Structural modifications, blast clean & coat interior

modules/hoppers, replace floor and doors, cleaning system repairs & enhancements, baffle design/install, as well as complete conversions from old shakers to pulse jet. See our Case Histories and References provided on this website.

Our service crews are OSHA, MSHA, and HAZWOPER trained and certified. Our EMR ratings (1.00>) are below industry standards. Our OSHA records and safety history are unmatched. Copies of documentation and our "Health & Safety Program" are available upon request.

Contact your Midwesco representative to learn more details of this product and others.
