VacuTrans[®]

Combined Air Out Here

Discharge hose sends picked-up material where you want it to go

What is Vacutrans?

A specially designed industrial/contractors tool that converts your compressed air supply into a vacuum and material-transferring system.

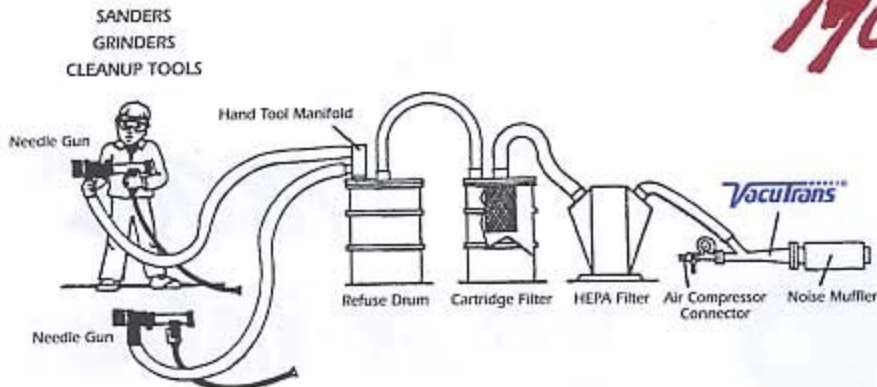

- Light Weight
- Portable
- Easy-to-Use...Hard to Abuse!
- Flexible to Your Material Handling/Clean-Up Needs!
- Cost Effective - Saving You Time and Money!

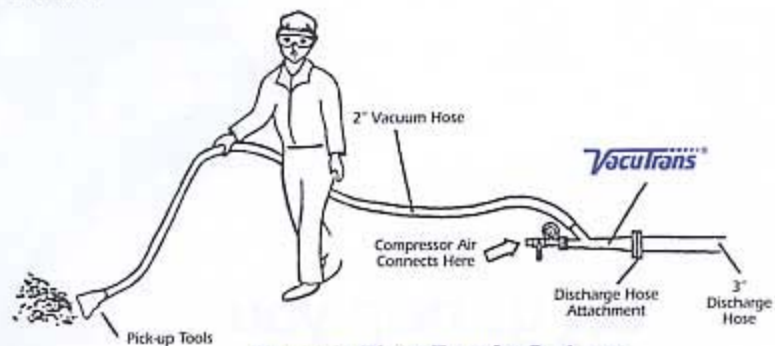

Example Drum Transfer Package

Move it Fast!

Pea gravel, detergent, perlite, foundry sand, feeds, acrylic beads, blasting abrasives, styrene pellets, wheat, fertilizer, sand, water, oil, sand slurry, EPA clean-up/waste materials - even popcorn are all moved with Vacutrans®.

Example Hazardous Materials Package

Example Direct Transfer Package

We offer you flexible solutions to your material clean-up and transfer needs. Ask for our accessories sheet or your sales representative to tailor a package to your specific needs!

WARNING: As with all Pneumatic tools, proper hearing protection is required.
