# Press Release

## **Midwesco® Announces the Black Box to Increase Customer Plant Productivity, Meet the Latest Market Demands, and Shorten Their Time to Market.**

**Winchester, VA - April 26, 2007:** Midwesco® Filter Resources, Inc. (NASDAQ NM: MFRI) announced today immediate availability of the new Black Box product, an integral part of streamlining the dust collection process. Midwesco's Black Box is designed to be a portable and/or permanent diagnostic system that spans the entire baghouse or dust collector application scenarios, from monitoring air flow to trouble shooting and broken bag detection that integrate with real-time data. This is a vital asset for those that are still working to achieve MACT compliance by the September deadline.

“Strategic decisions regarding your baghouse or dust collector require real-time data analysis,” said John Brown, Hardware and Accessory Product Manager. “In our on-going effort to provide our customers with innovative solutions to increase their plant productivity, meet the latest market demands and shorten their time to market, we wanted to release the Black Box immediately. The black box will enable hundreds of thousands of plant and maintenance managers in organizations large and small to deliver accurate real-time baghouse/collector data in order to make strategic decisions for continued plant operations.”

For more information on the Black Box system, contact John Brown at 800.336.7300 (+1.540.667.8500) or visit us at [www.midwescofilter.com](http://www.midwescofilter.com) for downloadable literature.

**For Release 9 a.m. EDT, April 26, 2007**

**About Midwesco® Filter Resources, Inc.**

Midwesco® Filter Resources, Inc. is a world leader in dry filtration and dust collection filters since 1968. Midwesco® Filter has developed and maintains one of the largest inventories of dust collector and baghouse bags, cages, accessories, parts and cartridge elements in the industry.

Midwesco® Filter, along with its subsidiaries, TDC Filter, Nordic Air Filtration and Nordic Midwesco, are committed to providing their clients with the most cost-effective, highest value products and services available that will enhance their baghouse and cartridge systems. It is through continuous improvement in manufacturing processes, raw material acquisition, and technically competent field services that Midwesco® Filter can bring its clients the best value.
