Press Release

Midwesco Filter Resources, Inc. Adds Application Engineering Support

Winchester, VA, August 29, 2005: Midwesco Filter continues to grow its 'solutions-based' support for our clients. To that end, we have welcomed John Vaklyes as the newest member of our technical global solutions team. Mr. Vaklyes holds a Bachelor of Science degree in Environmental Engineering from Purdue University and has 24 years of progressive and practical experience in the air pollution industry.

"We are very pleased to have John joining our staff of industry professionals. He brings a thorough understanding of the air pollution industry coupled with vast on-hands experience that is greatly desired both for our company and our valued customers," stated Gene Ogilvie, President of Midwesco Filter.

Prior to joining Midwesco Filter, Mr. Vaklyes worked as a Chief Engineer, Air Pollution Control Equipment for Fuller Bulk Handling. He was responsible for the proper and successful completion of all engineering contracts for all types of fabric filters, ancillary equipment, and ductwork. He also previously worked for Fisher-Klosterman, Inc., and Amerex, Inc., as a Senior Application Engineer.

"As our Application Engineer, John will provide leadership, expertise, and guidance for our baghouse solutions," stated Gene Ogilvie, President of Midwesco Filter. Please contact your sales resource at Midwesco Filter to learn more about John Vaklyes and our solutions for your dust collection issues, like MACT compliance.

For Release 9 a.m. EDT, August 29, 2005

About Midwesco Filter

Midwesco Filter Resources, Inc. is a world leader in dry filtration and dust collection filters since 1968. Midwesco Filter has developed and maintains one of the largest inventories of dust collector and baghouse filter bags, cages, accessories, parts, and cartridge elements in the industry.

Midwesco Filter, along with its subsidiaries, TDC Filter and Nordic Air, are committed to providing their clients with the most cost-effective, highest value products and services available that will enhance their baghouse and cartridge systems. It is through continuous improvement in manufacturing processes, raw material acquisition, and technically competent field services that Midwesco Filter can bring its clients the best value.

Midwesco Filter operates facilities in Winchester, VA; Cicero, IL; and Naskaskov, Denmark. Midwesco Filter maintains regional based field service crews to handle dust collector inspections, renovations, audits, seminars, and rebuilds. We also maintain a dedicated and diligent sales force in the US, Europe, Canada, Central and South America, Japan, China, India, and South Korea.

Midwesco Filter employs the Industry's most vast and diverse application specialists, site inspectors, and lab techs. Through Midwesco Filter, clients have access to used filter autopsies, filter and fabric analysis, VDI airflow evaluations, in-situ filter cleaning and flow readings, and state-of-the-art fabric knitting and needling techniques.

Midwesco Filter best serves its clients with a totally integrated customer service database, real-time order access and tracking, electronic data interchange; as well as quick and reliable quotations. For more information, visit www.midwescofilter.com.
